Bio-View Network System - Integration to Crestron

Scenario 1 - Relay Control by ekey or Crestron

Note: Gates can be controlled by Crestron relays, Bio-View relays, or both.

Note: In this scenario, an integration module from Crestron can be used.
For information on this module, please go to:
http://www.crestron.com/legal/software_license_agreement/default.asp?check=1&returnurl=%2Fresources%2Fproduct%5Fand%5Fprogramming%5Fresources%2Finegrated%5Fpartner%5Fmodules%2Fdefault.asp&returnqs=manufacturer%5Fid%3D255
Bio-View Network System - Integration to Crestron

Scenario 2 - Relay Control by Crestron only

Bio-View Server

Crestron Processor

Network Router

Internet (VPN, WAN)

ekey LAN adaptors (mounted on DIN rail)

This scenario features P/N NSC (Network System Crestron)

Bio-View by Holovision

Note: Gates can be controlled by Crestron relays only

Note: In this scenario, an integration module from Crestron must be used.
For information on this module, please go to:
http://www.crestron.com/legal/software_license_agreement/default.asp?check=1&returnuri=%2Fresources%2Fproduct%5Fand%5Fprogramming%5Fresources%2Fintegrated%5Fmodules%2Fdefault%2Easp&returnqs=manufacturer%5Fid%3D255
Bio-View Stand-Alone System - Integration to Crestron

Scenario 3 - Stand Alone Biometric Systems

Note: Gates can be controlled by Crestron relays, Bio-View relays, or both.

Note: In this scenario, an integration module from Infusebox is required. For information on this module, please go to:
