## **Doorphone Programming**

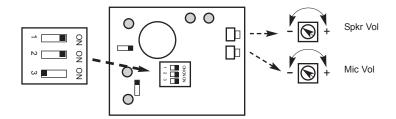

# Instructions for E-10 and E-40 Doorphones

### Microphone Volume

In certain noisy locations (traffic or wind), the microphone volume may need to be decreased. A symptom of this is one-way talk path, in which the distant party cannot be heard over the speaker. A "MIC VOL" adjustment is provided on the doorphone for increasing or decreasing the microphone volume.

#### Speaker Volume

The "SPKR VOL" pot can be adjusted to increase or decrease the speaker volume to the desired level.

### **Dip Switch Settings**

DIP Switch	Position	Description	
1	ON	Auto Answer - Doorphone answers when incoming call is detected.	
2	ON	Call Timer - See E-10 manual for a description of this feature. Recommended setting is "ON". This is the factory default.	
3	OFF	Programming Mode - E-10 is factory pre-set, and normally does not need re-programming. Refer to E-10 manual (Viking document which is included) for details	

Holovision recommends the default settings on the dip switches. See the E-10 or E-40 manual for more information.

### Instructions for C-2000B Controller

### Dip Switch Settings C-2000B

DIP	Position	Description
Switch		
1	OFF	Auxiliary Contact Mode
1	ON	Doorbell Mode- Factory Default

## **Instructions for C-2000 Controller**

The C-2000 controller is factory set to work right out of the box. If customization of the default settings is required, see the steps listed below. Refer to the C-2000 manual for additional options

### Access Programming Mode (Local Access)

STEP	ACTION	
1	Move DIP switch 2 from OFF to ON position.	
2	Come off-hook with any house phone connected to terminals 4 & 5 LINE OUT TO PHONES.	
3	Double beep indicates accessing the programming mode.	
4	You can now program the C-2000A. The features covered in this manual are <b>Maximum Doorphone Ring Count</b> and <b>Door Strike Activation Time</b> . For information on programming other features see the Viking C-2000 manual.	
5	Move DIP switch 2 back to the <b>OFF</b> position.	

### Maximum Doorphone Ring Count - Factory Default is 5 Rings

STEP	ACTION	
1	Follow steps 1-3 from "Access Programming Mode" (above).	
2	At "double beep" enter desired number of rings, followed by #61. Example: For 7 rings, enter "07#61".	
3	Hang up the phone.	

#### Program Gate Strike Relays - Factory Default is 0.5 Seconds

STEP	ACTION	
1	Follow steps 1-3 from "Access Programming Mode" (above).	
2	At "double beep" enter desired number of seconds of strike activation, followed by: #19 for Gate 1, #29 for Gate 2, #39 for Gate 3, #49 for Gate 4 Examples: Set Gate 1 for 8 seconds (08#19); Set Gate 3 for 15 seconds (15#39)	
3	Hang up the phone.	

### Operation Instructions for C-2000B Controller

### ANSWER A CALL FROM DOORBOX

When the phones ring, pick up a phone to be connected to the visitor.

### PLACING CO LINE CALLS ON HOLD (CALL WAITING)

If a phone call is in progress, and a doorbox is activated, one to four beeps will be heard (indicating which doorphone is calling). To place the call in progress on hold and speak to the visitor, push #. When you want to return to the original phone call, push #.

### ACTIVATING A DOORSTRIKE OR OPENING A GATE

When a call is in progress, press \*\* open the gate and return to the original call. If you do not want to open the gate, press # to return to the original call.

Strike can be activated with out the need of a "call-first" to the entry phone. Refer to the list below for codes for specific entry relays.

Entry Relay	Strike Code
1	#1**
2	#2**
3	#3**
4	#4**
