Add-ons:

Ring Video Doorbell Elite X
See who is coming to your gate or door and grant them access via the Ring App. The RVD Elite is Ring's most premium doorbell, offering a steak design and Power over Ethernet connectivity. Plus the X-Line of Ring products includes a 3 year limited warranty, Ring Protect Basic for the lifetime of the device.

Ring Alarm
Add security beyond your access ways with Ring Alarm. You can find a kit customized to your home with Window and door Sensors and Motion Detectors. You can self monitor or use monitored services by Ring Protect Plus for only $10/month!

Frequently Asked Questions

What are the benefits of a Ring Access Controller Pro?
You'll enjoy the convenience of smart access. Unlock your gate from anywhere, anytime for family, friends and service professionals. When paired with a Ring Video Doorbell or camera, you can verify who's there and grant access directly from Live View in the Ring app for secure access.

You'll also enjoy secure Amazon deliveries. Ring Access Controller Pro works with Key by Amazon, enabling Amazon delivery drivers to leave packages inside your gate. Multi-factor authentication ensures that delivery drivers only gain building access when they're delivering an Amazon package.

What is the difference between the cellular and Ethernet models?
The cellular model includes an AT&T SIM (monthly charges will be covered by Ring/Amazon). The ethernet model offers an ethernet port on the side of the product for customers to use with their existing ethernet connection.

Will my existing Ring products work with Access Controller Pro?
You can use one Ring Video Doorbell OR camera with Ring Access Controller Pro to control your gate from Live View in the Ring app. Customers who do not have Ring camera devices cannot use this device in the Ring app.

You can also use the Key app to control your gate without Ring camera devices. You do not need a Ring Video Doorbells or cameral to use Key for Gate delivery services.
